

I request that my son/daughter be registered in the Children’s Dental Program to be held at UBC. I consent to my child receiving routine dental treatment. **I understand that treatment will be provided by a dental student (“dentist and or dental hygienist in training”) under the supervision of a faculty member of UBC Faculty of Dentistry.** However, if the supervising faculty member feels that the treatment is beyond the scope of a dental student, my son/daughter will be referred for treatment to the UBC Graduate Specialty Program in Pediatric Dentistry. Treatment in the graduate program will be provided by a dentist who is taking extra training in children’s dentistry. Fees will be charged for treatment in the graduate program and I must arrange transportation.

I understand that treatment may include x-rays, preventive procedures (teeth cleaning, fluoride treatment, dental sealants), silver fillings, silver caps, tooth coloured fillings, extractions (tooth pulling), root canals on baby teeth, and the use of local anaesthetic (freezing).
